

During Deployment

Family Reunion/Reintegration Event

Family Reunion and Reintegration workshop serves two purposes. First, it provides information on the deployed unit's status—whenever possible the Yellow Ribbon office will try to arrange a video or teleconference with the deployed unit. We will also talk among our own family networks to ensure that all families are up to date on any information that our office can share as far as time-lines, locations, etc. Second, the workshop aims to prepare Family Members for the return of their Service Member . It is important to have realistic expectations and plans. We also cover, again, benefits and resources available throughout the state in case of any kinds of problems a family or service member might encounter upon return. This one-day training event conducted 60-90 days prior to the unit's return.
